

AMY TANG

AUTHOR, SPEAKER, HEALER & SOCIAL ENTREPRENEUR

About the Book— A Playdate with Destiny

When Amy Tang answered her miraculous call to destiny and set out to positively impact the lives of countless individuals, she was ill-prepared for the obstacles that arose. Financial woes, repetitive “no’s”, and judgmental blows threatened the belief in herself and her faith in the higher good.

While simultaneously pursuing the publishing of her first book *Awakening to the Light Within* and launching Lights On®, Amy gleaned unconventional wisdom about putting dreams into action.

A Playdate with Destiny paves the way for all revolutionary thought leaders,

creative innovators, and everyday visionaries who have a passionate desire to make this world a better place. Through compelling personal stories, along with tangible tools and powerful practices, pathways to success and fulfillment are revealed.

As humanity dangles on the precipice of “The Age of Enlightenment” the status quo is changing. Most individuals are being called to break through limitations and pioneer new pathways. However, the advanced strategies and sophisticated maneuvers required to do so have been overlooked. Now, using edgy humor and tantalizing quips, *A Playdate with Destiny*

encourages all inspired dreamers to channel dangerous risks, subtle setbacks and disappointing challenges into a fun-filled sense of adventure.
